

SOHAN ANAND HANAGANDI

AI Product Manager · Builder

+1(857) 370-2511 | sohananandhanagandi@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

AI PM with 5+ years driving Claude and OpenAI adoption, agentic workflows, and AI training across Sony, Fabrix.ai, and Qlik. Hand-rolled RAG, ship playbooks, upskill non-technical teams.

EDUCATION

Northeastern University, MS, Project Management (Product & Technology Focus)
Gogte Institute of Technology, BE, Computer Science

Sep 2023 – Dec 2025
Aug 2016 – Mar 2020

EXPERIENCE

AI Product Manager | Community Dreams Foundation | Remote Feb 2026 – Present

- Designed AI training program with Claude and OpenAI for non-technical staff; upskilled 30+ team members in 6 weeks.
- Built playbooks, prompt libraries, and hands-on guides; demystified AI for 4 departments and lifted tool adoption 60%.
- Identified 8 AI integration opportunities across ops; scoped, deployed 3 agentic workflows that cut manual work 45%.

AI Product Manager | Fabrix.ai (fka CloudFabrix), Series A AIOps Platform | Pleasanton, CA Jan 2025 – Jul 2025

- Owned end-to-end AI deployments across 8 enterprise accounts; managed Claude and OpenAI vendor relationships and SOWs.
- Built agentic AI workflows with function calling and RAG on 1.2M+ events; cut incident triage 38%, lifted resolution 31%.
- Defined success metrics for 5 AI initiatives; tracked outcomes, briefed exec leadership monthly with rollup dashboards.
- Partnered with IT, legal, and compliance on AI governance, data privacy, and responsible AI guardrails for rollout.

Product Manager | Sony Interactive Entertainment, PlayStation (\$28B Division, 120M+ MAU) Dec 2022 – Sep 2023

- Led complex cross-functional projects from inception to launch on 120M+ MAU platform; drove \$4.1M annual revenue impact.
- Translated technical concepts for design, marketing, finance, and legal; ran 12+ training sessions on data and tooling.
- Owned vendor evaluation and integration for 3 third-party platforms; hit 100% on-time delivery in ambiguous scope.

Product Manager | Qlik Technology, B2B SaaS Analytics Platform Jul 2021 – Nov 2022

- Owned roadmap and end-to-end delivery for analytics platform serving 4,200+ accounts; shipped 14 features, 92% on-time.
- Built community of internal champions across 5 teams; ran enablement sessions that lifted product adoption 28%.
- Translated 40+ monthly customer conversations into requirements; partnered with engineering, design, and ops to ship.

Associate Product Manager | Qlik Technology, B2B SaaS Analytics Platform Jan 2020 – Jun 2021

- Built training docs and onboarding guides for 30+ stakeholders; cut time-to-productivity 45% across new hires.
- Managed vendor evaluation for 4 third-party tools; deployed Stripe and Plaid integrations adding \$680K new ARR.

PROJECTS

BrandBrief AI: RAG Template Matching Engine [Live App](#) | [Case Study](#) Mar 2026

- Built a RAG matching engine to replace manual template lookup; users describe a brief in plain English, get the match in <3s.
- Hand-rolled the stack (no LangChain): pgvector on Supabase, Claude inference, rate-limited API on Vercel.
- Hit ~70% top-1 retrieval across 4,500+ template records; live in production with auth and error handling.

Kira AI: Production RAG Voice Agent | [Live on Portfolio](#) Jan 2026

- Built a voice agent so recruiters get answers about my work in 2 minutes; replaces the screening calls I used to take.
- Hand-rolled RAG: custom pgvector schema on Supabase, OpenAI embeddings, Claude Haiku streaming inference.
- Live on Vercel with prompt guardrails, context windowing, and refusal logic for out-of-context queries.

SKILLS

AI Adoption & Enablement : AI Training Programs, Playbooks, Prompt Libraries, AI Literacy, Hands-On Workshops, Change Management, Cross-Functional Facilitation, Community Building

Agentic AI & Builds : LLMs, Claude (Anthropic), OpenAI, Agentic Workflows, RAG, Function Calling, Multi-Agent Orchestration, Evals, Guardrails, Lovable, Replit, Cursor, Claude Code

Project Mgmt & Governance : End-to-End Delivery, Vendor Management, Requirements Gathering, AI Governance, Data Privacy, Responsible AI, Compliance, Agile/Scrum, OKRs

Technical & Tooling : Python, TypeScript/React, SQL, pgvector, Supabase, Anthropic API, OpenAI API, Mixpanel, Amplitude, Figma, Productboard, Jira, GitHub
